- One logical document per PDF
- Add complete Japanese translations when required
- Keep originals and use consistent file names

FINAL CONSISTENCY CHECK

Names, dates, addresses, school periods, work periods, sponsor relationship and all financial amounts must agree across every document.

3 FINANCE AND FORMS

FOUR SCHOOL FORMS

1. Application for Admission
2. Resume
3. Purpose of Study
4. Financial Sponsorship Statement

Use passport spelling, exact dates and a single master facts sheet. Sign only after the final review.

RECOMMENDED BANK BALANCE

JPY 2,000,000 OR MORE

2-Year first-year basis:

JPY 813,000 school fees + JPY 1,056,000 living costs = **JPY 1,869,000**

1.5-Year first-year basis:

JPY 810,000 school fees + JPY 1,056,000 living costs = **JPY 1,866,000**

JPY 2,000,000 is a practical planning target, not a universal legal minimum. The school or ISA may request more funds or evidence.

The balance must credibly cover study and living costs and match the sponsor's lawful income, tax and savings history.

1 YEAR VS 3 YEARS

Base file: at least the past 1 year of fund formation under the current school list and ISA checklist.

Additional school review: keep up to 3 years ready because the longer school guide requests it.

LARGE DEPOSITS

Explain each unusual deposit with independent evidence: salary, business income, deposit maturity, asset sale, gift or family transfer. Temporary deposits or false documents can damage the application.

SPONSOR PLAN

State tuition, monthly support, remittance method and relationship. Keep transfer receipts and student bank records for future residence renewal.

NEVER BASE THE PLAN ON PART-TIME WORK

Expected employment and wages are not guaranteed and cannot replace credible pre-entry funding.

4 ROADMAP AND SSW(i)

ADMISSION TO JAPAN

1. Documents and forms -> **2.** School review -> **3.** COE application -> **4.** Payment and admission papers -> **5.** VFS Student visa -> **6.** Enter Japan and complete Osaka setup

COE AND VISA TIMING

COE standard processing is generally 1-3 months and COE validity is generally 3 months. Embassy guidance states about 6 working days after a complete VFS submission; detailed examination may take 1-2 months.

A COE does not guarantee a visa or entry. Recheck the current VFS checklist and do not make non-refundable travel arrangements too early.

N2 EARLY GRADUATION TO SSW(i)

1. Pass JLPT N2 early
2. Obtain school approval for early graduation
3. Choose a Specified Skilled Worker field
4. Pass the field-specific skills test and any additional field test
5. Secure an accepting employer and sign a compliant employment contract
6. Employer or registered support organization prepares the SSW(i) support plan
7. Apply to change from Student to Specified Skilled Worker (i)
8. Complete early graduation and start SSW(i) work only after permission

IMPORTANT SSW(i) RULE

JLPT N2 satisfies the general Japanese-language threshold for SSW(i), but it does **not** replace the field-specific skills test. Some fields require an additional Japanese test. N2 or leaving school does not automatically change residence status.

JPETS - NEPAL

Mandatory since 23 Jun 2025.

Use only a designated panel clinic. Check name, passport details and certificate validity before COE/visa submission.

PART-TIME WORK

Permission required before work.

Maximum 28 hours/week across all jobs. During school-designated long vacations: up to 8 hours/day. Adult-entertainment-related work is prohibited.

ARRIVAL IN OSAKA

Within 14 days after fixing residence: register the address at the ward office. Enroll in National Health Insurance if eligible. The normal covered-cost share for this age group is 30%.

SSW(i) STATUS CHANGE

Tests -> contract -> support plan -> application -> permission -> work.
Do not begin Specified Skilled Worker duties before the new status is granted.

OFFICIAL CHECKS

Before every submission:

Reopen ISA, Embassy of Japan in Nepal, VFS and JPETS pages. Requirements, forms, appointment conditions and fees can change.
